

Homestead Exemption

In order to qualify for a homestead exemption, the owner must be the owner of record and occupy the property as their principal residence on or before January 1st of the year following their purchase. Ordinarily, the homestead exemption will then remain in place until there is another change in ownership. The method by which a homeowner may file varies from county to county. Historically, a homeowner had to file in person, but now many counties have established procedures on their websites for filing online, or for accessing the forms and obtaining the different options available for filing. You may also access information for every county in the State of Georgia at www.etax.dor.ga.gov.

Information you MAY need to include with your application:

- A copy of your recorded Warranty Deed or a copy of your Settlement Statement
- Photo I.D.
- You may also be asked for your automobile registration or tag numbers as proof of residency.

The deadline for filing is April 1st.
