

REMOTE MONITORING SERVICE

PRIORITIZE PATIENT CARE & MINIMIZE WORKLOAD

DATA MONITORING

Patient data is monitored 24/7/365.

Improves quality of care by empowering providers to adjust care plans in real time.

CUSTOMIZED ALERTS

Saves time by giving providers full control over how and when to determine if a patient requires triage.

24/7 TRIAGE LINE

Staffed by qualified healthcare professionals, who follow providers triage protocols to ensure continuity of care.

COMPLIANCE

We act as an extension of your practice, reminding patients to test, answering questions, and educating them on the value of the program.
